

BEDDING MATERIAL

ALWAYS PROVIDE BEDDING MATERIAL IN THEIR CAGE

- Suitable bedding materials are wood chips (non-aspen), cellulose based chips or shredded filter paper.
- Bedding material should be at least 2cm deep to allow your mice to dig.
- Fine saw dust, wood shavings and aspen bedding must not be used as they can cause health problems.
- Fragrant and coloured bedding material should be avoided.

This pet care sheet has been produced by the RSPCA Companion Animals Department (V1 CAD/KW 17.07.10).
