

RSPCA Hamster Care Advice

RSPCA COMPANION ANIMALS PET CARE FACTSHEET

CAGE CLEANING

MAKE SURE THEIR CAGE IS CLEAN WITH DRY BEDDING AND NESTING MATERIAL. IT IS IMPORTANT TO MAINTAIN A BALANCE BETWEEN GOOD HEALTH AND AVOIDING EXCESSIVE DISTURBANCE AND STRESS

- Do not allow the bedding material to become damp or smelly.
- Sense of smell is very important to hamsters, so transfer a small amount of old unsoiled bedding and nesting material when you clean out your hamster's cage, especially if they are housed in groups.
- Clean or replace objects soiled by faeces etc, as these odours may trigger fighting.

This pet care sheet has been produced by the RSPCA Companion Animals Department (V1 CAD/KW 04.11.10). This leaflet is provided for general information only and is not intended to be relied upon as specific advice.
