

TEMPERATURE AND HUMIDITY

MAKE SURE THAT THE TEMPERATURE AND HUMIDITY OF ANY PLACE YOU HOUSE YOUR MICE IS APPROPRIATE.

The home-cage should:

- be placed out of direct sunlight;
- be located away from extreme temperatures (i.e. not kept in a conservatory, garage or shed);
- be located away from extremes of humidity (i.e. not kept in bathrooms or in air conditioned rooms);
- If summer temperatures are high, be moved to a cooler part of the home if necessary.

This pet care sheet has been produced by the RSPCA Companion Animals Department (V1 CAD/KW 30.06.10). This leaflet is provided for general information only and is not intended to be relied upon as specific advice.
